

TGAN-F

```
graph LR; TGAN-F --- A[不用3D卷积核做discriminator]; TGAN-F --- B[Hessian分析：原理是什么？]; TGAN-F --- C[temporal shift module是什么]; TGAN-F --- D[看代码实现];
```

A mind map diagram with a central green node labeled 'TGAN-F'. Four green curved lines radiate from this central node to four dark green rectangular nodes on the right. The nodes contain the following text: '不用3D卷积核做discriminator', 'Hessian分析：原理是什么？', 'temporal shift module是什么', and '看代码实现'.

不用3D卷积核做discriminator

Hessian分析：原理是什么？

temporal shift module是什么

看代码实现
